## DETAILED ACTION

The previous Office Action, Paper No. 13, mailed 5/19/2000, is hereby vacated in favor of the following Office Action.

The reply filed on 3/13/2000 is not fully responsive to the prior Office action because of the following omission(s) or matter(s): the amendment to claim 49, and addition of new claims 50-60, resulted in the introduction of a new, distinct invention not previously claimed. The original invention was a method of treatment, whereas the amended claims are drawn to methods of screening for agents which modulate *patched*-dependent signal transduction. It is noted that step (e) of claim 49 recites administration of a test agent to an animal. However this appears to be only a screening step and not a method of treatment, because the preamble and the other method steps are drawn to a method of screening. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is

longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
